

Winter Addition

Start →	$1+9$	$8+8$	$9+2$	$6+6$	$5+8$		$7+4$	$9+6$	$5+7$
$5+6$	17		10	14		10	$9+9$		
	13	11	18	15	12	16	$3+9$		
$8+5$		14		16		11	$7+6$		
$6+4$	12	10	13	$8+2$					
$7+3$	$4+8$	$7+7$	$8+3$		$4+9$	$6+8$	$5+5$	$9+8$	$7+8$

Winter Addition

Roll a dice and beginning at the start move that many spaces around the game track. Answer the addition problem and cover that number on the gameboard with a counter. If the number is covered you can not place a counter. If you land on a snowflake you can choose any number to cover. The game ends when all the numbers have been covered. You will move around the game track multiple times. The winner is the player that has covered the most numbers.
